DETAILED ACTION

Response to Amendment

1. The amendment filed 23 December 2009 has been considered and is sufficient to overcome the rejections from the previous office actions. However, the amendment was insufficient to place the case in condition for allowance. Claims 31-50 are currently pending in this application.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 31-50 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. It is not clear if the structure claimed is a knife holder as claimed in the preamble or a knife assembly including the holder and a knife.

4. Claim 35 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The term "in particular" is indefinite.

5. Claim 46 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The word "region(s)" is indefinite since it is unclear if applicant is claiming a single region or multiple regions. It is advised for applicant to delete "(s)" from the claim.

6. Claim 49 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. It is advised for applicant to change the phrase "**The** comminution device" to "**A** comminution device".

Allowable Subject Matter

7. Claims 31-50 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

8. The following is a statement of reasons for the indication of allowable subject matter: It is in the opinion of the examiner that the art of record neither anticipates nor renders obvious "the knife receiving device ... is in a J-Shape and the recess is in a wedge or conical shape." in combination with the rest of the claimed limitations set forth in the independent claim(s).

The closest prior art is E.P. Patent No. 771911 which discloses a milling tool holder with a J shape. However it does not disclose a knife or the recess being wedge or conically shaped. The other closest prior art is D.E. Patent No. 20116344U which discloses a knife and knife holder. However the holder does not have a J shaped recess.

Conclusion

9. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
